Tech-driven and highly motivated Software Developer with a strong passion for innovation and problem-solving. Currently completing my Bachelor's degree in Computer Science, I'm eager to gain hands-on experience and grow within dynamic development teams. Open to opportunities abroad, willing to relocate, and flexible for on-site, remote, or travel-based roles. Strong foundation in cybersecurity, DevOps, and cloud computing, with a keen interest in emerging technologies.

Experience

06/2024 - 08/2024

IT Engineer Intern

ALLNET Ibérica

During my internship at ALLNET Ibérica, I designed and developed a responsive business website using React and Django Framework, ensuring a seamless user experience. I also collaborated with an international team, working closely with a German engineering team and official Chinese support to configure Akubox control boards, troubleshooting hardware and software integration issues.

Education

2021-2025

BSc in Computer Engineering

University of A Coruña (UDC)

Interests

- **Cybersecurity** (Junior Security Engineer, Security Intern, SOC Analyst Intern)
- **AI & Machine Learning** (Junior Machine Learning Engineer, AI Research Intern, Data Science Intern)
- **Cloud Computing & DevOps** (Junior Cloud Engineer, DevOps Intern, Site Reliability Intern)

Projects

Personal Portfolio (React, Next.js, Tailwind CSS)

Developed a fully responsive and dynamic portfolio showcasing my skills and projects. Implemented modern UI/UX principles for an optimized user experience.

Appointment Management Web App (React, Django Framework, SQLite)

Built a full-stack web application for scheduling appointments, featuring role-based authentication, real-time notifications, and integration with Google Calendar.

Self-Hosted Server with Dockerized Services (Linux, Docker, Nginx)

Deployed and managed a self-hosted server running multiple containerized services, optimizing infrastructure with Docker, Docker Compose, and automated deployments.

Languages

- **Spanish** – Native
- **English** – Professional working proficiency
